Founded in 1992, Creative Computing Solutions, Inc. (CCSi) is a woman-owned business headquartered in Rockville, MD, with a primary focus on providing program management, information assurance (IA) and security, enterprise systems engineering, and business process transformation services to the federal government. CCSi is International Organization for Standardization (ISO) 27001:2005, 20000-1:2005, and 9001:2008 certified. CCSi is similarly Capability Maturity Model Integration (CMMI) Level 3 certified in Development (DEV) and was the first and one of only eight companies with a CMMI Service plus Service System Development (SVC+SSD) certification.
