Founded in 1996, Creative Information Technology, Inc. (CITI) has continued to prove itself as a forward-thinking information technology company - a company that provides its clients with real-world solutions that integrate long-term functionality and capability. With quality solutions and services provided primarily to the Federal government, CITI has grown into a diversely talented and motivated IT enterprise with nearly 350 employees and annual revenue approaching \$75 million. CITI is a right-sized company - large enough to have vast resources to meet its customer's needs, yet small enough to be agile and creative.
