Award-Winning, World-Class Experience; Teksouth's data management and analysis tools have been forged and tempered in a number of Department of Defense-related projects; One particularly successful engineering and development effort for the US Defense Department now has more than 19,000 users, including the office of the Secretary of the Air Force and all major commands. This data warehouse project underwent extensive stress tests by the government, proving its reliability under demanding conditions.; The Commander's Resources Integration System (CRIS) was designed and developed for the US Air Force. This globally-deployed, multi-terabyte scale data warehouse manages the US Air Force's \$40+ billion Operations and Maintenance budget and is currently one of the largest decision support systems in the entire US Department of Defense. Click here for CRIS Case Study.

### Training

Teksouth's trainers for the Microsoft Office-based financial tools training have worked in Air Force and DOD financial management organizations for decades. We possess the expertise with Air Force and DOD accounting systems and the unique Air Force accounting methods and terminology that is necessary for developing the Air Force FM-specific application of advanced Microsoft Office capabilities for our organization; Teksouth's training will provide the hands-on directed instruction needed for pulling Air Force and DOD data from standard systems and the expertise in using FM data in Microsoft Office for analysis and presentation. Some Air Force FM organizations who received this training from Teksouth have received "best practices" recognition, and their personnel have received "best performer" recognition for the tools they implemented with this training.

**Advanced Microsoft Office Training:** Teksouth trainers have worked in Air Force and other DoD financial management organizations for decades. We deliver advanced expertise with DoD accounting systems, unique methods, terminology and training skills to develop custom financial management tools using unique techniques with Microsoft Office capabilities. Air Force Civilian Pay Toolset Development Civilian Pay comprises nearly 30-50% of an organization's operating budget, yet currently, no basic practical tools exist for budget analysts to correctly and properly manage this valuable commodity. Advance your professional skills by enhancing your Financial Manager skills. Teksouth gives you the competitive edge with custom tool development.
