For more than 20 years, TEKsystems has been providing the government market with superior IT and communications services. We have worked with federal agencies, state governments, and have become a preferred services provider for 18 of the top 20 prime government contractors. Every day over 1,700 of our technical professionals serve clients within local, state, and federal sectors. As the nation's largest IT staffing services firm, we are uniquely qualified to provide rapid response to large and highly specialized government programs. Headquartered in the Baltimore-Washington area, we leverage an extensive network of more than 90 offices in the U.S., Canada, and Europe, and over 900 recruiters to deliver best in class technical talent on short timeframes and with minimal other direct costs (ODC). TEKsystems ERP support Services has laser focus on the critical elements of ERP projects; people. We provide contract staffing and services that supplement and compliment activities carried out by implementation partners or internal staff. We are an ERP focused division housed within a multi billion dollar global IT staffing and services company.
