**Air Force Business and Enterprise Systems
(BES)**

the **Smart** **GUIDE** for **UPCOMING** acquisitions

OBJECTIVE

Enhance communication between members of Industry and the Business and Enterprise Systems (BES) Directorate

DISCLAIMER:

The following opportunities are speculative and the appearance of this information in this document or website in no way guarantees a contract action will be awarded.

the **SmartGUIDE** for **UPCOMING** acquisitions

The **SmartGUIDE**

An outline of acquisition information for upcoming business opportunities in each Division for the next 12-18 months.

table of contents

4	Logistics Sustainment Division (HIA)
12	Business Sustainment Division (HIB)
17	Enterprise Services Division (HIC)
18	Operations Division (HIZ)
24	Defense Enterprise Accounting and Management System Division (HIQ)

Project: Integrated Logistics System - Supply (ILS-S)

Objective: ILS-S is the over-arching program name for an integrated family of capability supporting base-level supply chain management. ILS-S provides supplies and equipment support to Air Force, Air Force Reserve, and Air National Guard units at fixed operating bases and forward operating locations. ILS-S is utilized at 190 sites Air Force-wide. ILS-S is comprised of:

- Standard Base Supply System (SBSS): Legacy supply system hosted on UNISYS mainframe computers.
- Enterprise Solution-Supply (ES-S): Modernized capability hosted on the Global Combat Support System – Air Force (GCSS-AF) Integration Framework.
- Asset Management: Combines business logic in ES-S and the Enterprise Data Collection Layer (EDCL) to manage workflow for base-level wireless (bar-coded) material movement activity.
- Air Force Supply Central Database (AFSCDB): Oracle-based database for ad-hoc and standard reports processing.

Scope: Purpose of this contract is to provide sustainment , development, and application services for ILS-S (excluding SBSS) in support of "retail" logistics systems.
