The Northrop Grumman Corporation is a large business with more than 120,000 employees located across all 50 states and in 25 countries. We are a \$34 billion, top-tier, global defense enterprise that spans a broad business based from the full Information Technology (IT) life cycle with products and services to designing and building airplanes, electronics, and sensors. For more than 75 years, we have provided high-quality, low-risk, customer-focused solutions. Our vision is to be the most trusted provider of systems and technologies that ensure the security of our nation and its allies.

Northrop Grumman Vision: Be the most trusted provider of systems and technologies that ensure the security of our nation and its allies.
