RYAN is a Capability Maturity Model Integration (CMMI) Level 3 company recognized for its capabilities in Business Intelligence (BI), Data Warehousing, and Professional Services. Our firm currently holds prime and subcontracting contracts with many different federal and commercial clients. We deliver business solutions in the areas of BI and Data Warehousing by supporting applications such as IBM Cognos, MicroStrategy, Oracle, and SAP Business Objects. We also provide expertise in the areas of Maintenance and Sustainment, Independent Verification and Validation (IV&V), Information Technology (IT) Security, Help Desk/Desktop Support, LAN Support, Database and System Administration, BI Training, and Web Application Development.
