Business as usual is no longer acceptable. Moving costs from \$60 per hour to \$59 per hour will not achieve needed results. IT leaders must change the way the govern, deliver, and manage services. Windward possess the real world know-how to architect, design, deploy highly efficient IT infrastructures that are closely aligned to USAFs mission objectives. Sample Expertise Areas
Service Desk Optimization: Consolidate services desks, streamline tools, improve processes, automation. Enterprise Services: through our commercial practice we have been delivering standardized, centralized, cloud based enterprise services (VDI, IaaS, PaaS, SaaS). Reduce massively duplicative support efforts, simplify C&A, development, test.
