

BIOGRAPHY

UNITED STATES AIR FORCE

Gregory W. McCan

Gregory W. McCan is the Development Planning Branch Chief for the Program Executive Officer, Business Enterprise Systems, Wright-Patterson AFB, Ohio. In that capacity, he is leading the effort to formally establish and execute Development Planning for Air Force Defense Business Systems. Mr. McCan oversees an organization responsible for collaboratively identifying and developing prospective materiel solutions in response to operational capability needs. By providing early engineering and acquisition support, Mr. McCan's team offers Air Force leadership trade space for portfolio and risk management, ensuring initiation of high-confidence Defense Business Systems programs.

Prior to assuming his present duties, Mr. McCan served as the Expeditionary Combat Support System (ECSS) Release 1 Deputy Program Manager for the United States Air Force.

Mr. McCan has supported the Department of Defense (DoD) throughout his entire career. He joined the Navy in 1980 and served four years on active duty. His military service was followed by an accomplished 20-plus year career in the DoD industry primarily in systems engineering, information technology, and program management. Mr. McCan has worked and held leadership positions in both small and large businesses providing services and solutions to the United States Navy, Army, and Air Force. His civilian service began in December 2006 at Wright-Patterson AFB.
