# The Smart Guide

Upcoming  
Acquisitions

May 2014

ACQUIRE \* OPERATE \* SUSTAIN \* ENABLE

# The **Smart** **GUIDE**

## **OBJECTIVE**

Enhance communications between members of Industry and the Business and Enterprise Systems (BES) Directorate

### DISCLAIMER:

The following opportunities are speculative and the appearance of this information in this document or website in no way guarantees a contract action will be awarded.

# The **Smart** **GUIDE**

An outline of acquisition information for upcoming business opportunities in each Division for the next 12-18 months

4	Logistics Sustainment Division (HIA)
15	Business Sustainment Division (HIB)
36	Enterprise Services Division (HIC)
39	Air Force Integrated Personnel and Pay System (AFIPPS) (HIQ)
42	Operations Division (HIZ)
43	C3I&N

## Upcoming Acquisitions

**Project:** Purchase Request Process System (PRPS) Sustainment & Maintenance Support

**Objective:** This effort is to acquire sustainment and maintenance support for PRPS.

**Scope:** The scope of this contract covers all tasks necessary to provide system sustainment, maintenance, and modification of the PRPS. PRPS Data System Designator (DSD) D203 is managed by AFLCMC/HIAR. PRPS (D203) is a business tool that automates the requirements definition process for known wholesale weapon system sustainment requirements onto Purchase Instruments (PIs) (Purchase Requests [PRs], Delivery Order Requests [DORs], Military Interdepartmental Purchase Requests [MIPRs]). The system routes PIs through as many as 30, as-required logistics functions to assemble the applicable engineering specifications, product testing requirements, qualified source information, transportation and packaging data, delivery schedules, and other material needed to ensure the right spare is obtained in a timely manner. PRPS also pulls financial system data to ensure funding is available, contracts are charged to the right account, and PIs are officially certified by a financial officer. PRPS then sends the completed PI to the contracting system for solicitation and contract award. Finally, contract award data is sent back to PRPS and the supply requirement computation systems so due-in data can be factored in future computation cycles.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** June 2015 - June 2020 (One year base period plus four 1 year option periods)

**Dollar Value:** <\$20M

**NAICS Code:** 541511

**RFP Release Date:** 1Q FY15

**Incumbent:** CACI, Inc. – Federal; FA8770-11-C-0012

**POCs:** Program Manager – Victoria Cox  
[victoria.cox@us.af.mil](mailto:victoria.cox@us.af.mil)  
937-656-2864; DSN 986-2864  
Contracting Officer – Justin Miller  
[justin.miller.24@us.af.mil](mailto:justin.miller.24@us.af.mil)  
937-257-7440; DSN 787-7440

**Upcoming Acquisitions**

**Project:** Integrated Logistics System - Supply (ILS-S) – Software Modification – Re-Platform

**Objective:** This acquisition will provide development and application services for ILS-S (Standard Base Supply System (SBSS) in support of "retail" logistics systems

**Scope:** The ILS-S PMO requires migration of Standard Base Supply System (SBSS) Common Business-Oriented Language (COBOL) hosted on a Unisys DMS 1100 (hierarchical database) mainframe to a Web Server/Application Server, mid-tier Java/relational database environment (ILS-S v5.0) to include but not limited to the use of automated code conversion tools. The contractor shall conduct testing, integration, deployment and support/sustainment activities to ensure migrated application (ILS-S v5.0) provides the same functionality that currently exists in the "As-Is" SBSS v14-2.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** August 2014 - June 2017 (One 25 month base period plus one 9 month option)

**Dollar Value:** \$9M - \$11M

**NAICS Code:** 541511

**RFP Release Date:** 3Q FY14

**Incumbent:** New Requirement

**POCs:** Program Manager – John McCollum

[john.mccollum@us.af.mil](mailto:john.mccollum@us.af.mil)

334-416-5835; DSN 596-5835

Contracting Officer – Sharon Stallings

[sharon.stallings@us.af.mil](mailto:sharon.stallings@us.af.mil)

334-416-1659; DSN 596-1659

## Upcoming Acquisitions

**Project:** Integrated Logistics System - Supply (ILS-S)

**Objective:** ILS-S Program Management Office (PMO) Re-compete: Sustainment, Development and Subject Matter Experts (SME)

**Scope:** Provide operations, maintenance, sustainment, modification, development, test, integration, security, and implementation of ILS-S applications: Standard Base Supply System (SBSS), Air Force Supply Central Database (AFSCDB), Enterprise Solution Supply (ES-S), and Mobility Inventory Control Accountability System (MICAS).

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** November 2014 - May 2018 (One 6 month base period, and three 1 year options)

**Dollar Value:** \$15M - \$25M

**NAICS Code:** 541511

**RFI Release Date:** 4Q FY14

**Incumbent:** CENTECH Group, Inc., FA8771-10-F-0006

**POCs:** Program Manager – Tommie Ellis

[tommie.ellis@gunter.af.mil](mailto:tommie.ellis@gunter.af.mil)

334-416-5727; DSN 596-5727

Contracting Officer – Sharon Stallings

[sharon.stallings@gunter.af.mil](mailto:sharon.stallings@gunter.af.mil)

334-416-1659; DSN 596-1659

**Project:** Cargo Movement Operations System (CMOS), and On-Line Vehicle Interactive Management System (OLVIMS)

**Objective:** Re-compete CMOS and OLVIMS Program Management Offices (PMOs) Support Services contract

**Scope:** The support services include all tasks necessary to provide operations, help desk, configuration management, subject matter experts, test, engineering change requests, security, and implementation of CMOS and OLVIMS applications in accordance with Business and Enterprise Systems Directorate Systems Engineering Process, Air Force Instructions, and PMO processes and procedures.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** September 2014 - March 2019 (One year base period; plus one 8-month option period; plus three 1 year option periods)

**Dollar Value:** \$15M - \$18M

**NAICS Code:** 541511

**RFI Release Date:** 3Q FY14

**Incumbent:** CENTECH Group, Inc., FA8771-04-D-0002 / 0102

**POCs:** Program Manager OLVIMS - 1Lt Daniel Y. Won

[daniel.won.1@us.af.mil](mailto:daniel.won.1@us.af.mil)

334-416-1229; DSN 596-1229

Contracting Officer – Sharon Stallings

[sharon.stallings@us.af.mil](mailto:sharon.stallings@us.af.mil)

334-416-1659; DSN 596-1659

**Project:** Cargo Movement Operations System (CMOS)

**Objective:** This effort is to compete for the sustainment, modification, and support of the CMOS applications.

**Scope:** The scope include all tasks necessary to provide deficiency report maintenance, sustainment, and modification of the CMOS application baseline in accordance with Business and Enterprise Systems Directorate Systems Engineering Process, Air Force Instructions, and PMO processes and procedures.

**Acquisition Approach:** 8(a) competitive award

**Small Business Set Aside:** Yes

**Period of Performance:** March 2015 - March 2020 (One year base period, plus four 1 year option periods)

**Dollar Value:** \$15 - \$18M

**NAICS Code:** 541511

**RFI Release Date:** 2Q FY15

**Incumbent:** IndraNet Jv1, LLC; FA8771-13-C-0009

**POCs:** Program Manager CMOS - 1Lt Michael J. Parrish  
[michael.parrish.13@us.af.mil](mailto:michael.parrish.13@us.af.mil)  
334-416-2288; DSN 596-2288  
Contracting Officer – Sharon Stallings  
[sharon.stallings@us.af.mil](mailto:sharon.stallings@us.af.mil)  
334-416-1659; DSN 596-1659

**Upcoming Acquisitions**

**Project:** Maintenance Operational System Support III (MOSS III), Subject Matter Experts (SME)

**Objective:** Provide user support (help desk, training and documentation) evaluating and documenting software application changes and faults, software testing, system administration, application security, certification, accreditation configuration management objectives, support maintaining and updating system architectures and risk management for the Air Force Maintenance programs in their sustainment/enhancement phase/cycle of the Integrated Maintenance Data Systems (IMDS) Operational Systems (OS) and Combat Ammunition System (CAS).

**Scope:** Sustainment and enhancement support for the following IMDS OS and CAS and their subcomponents respectively: (1) IMDS Central Database (CDB); (2) Precision Automated Management System (PAMS); (3) Enhanced Maintenance Operations Center (EMOC); (4) Training Business Area (TBA); (5) Maintenance Scheduling and Application Tool (MSAT); (6) Computer Software Configuration System (CSCS) and (7) Combat Ammunition System (CAS).

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** July 2014 - July 2019 (One year base period plus four 1 year option periods)

**Dollar Value:** \$13M - \$20M

**NAICS Code:** 541511

**RFP Release Date:** 3Q FY14

**Incumbent:** General Dynamics Information Technology (GDIT), W91QUZ-06-D-0012 6K28

**POCs:** Program Manager – Jamesia “Toni” Trammell

[HIAM.ACQ@us.af.mil](mailto:HIAM.ACQ@us.af.mil)

334-416-5461; DSN 596-5461

Contracting Officer – Margie Johnson

[margie.johnson@us.af.mil](mailto:margie.johnson@us.af.mil)

334-416-6341; DSN 596-6341

**Project:** Maintenance Operational System Support III (MOSS III), Technical Support (Tech)

**Objective:** Provide sustaining/enhancement engineering, evaluating and documenting software application changes and faults, protection of critical information, anti-tamper provisions, Information Technology (IT) expertise including National Security Systems (NSS), supportability and interoperability programming and the subsequent life cycle product support, correcting faults, improving system performance, adaptation to changing environments, software testing, configuration management objectives, support maintaining and updating system architectures and risk management for the Air Force Maintenance programs in their sustainment/enhancement phase/cycle and technical-functional level expertise in support Integrated Maintenance Data Systems (IMDS) Operational Systems (OS).

**Scope:** Sustainment and enhancement life cycle services for the following IMDS OS sub-components respectively: (1) IMDS Central Database (CDB); (2) Precision Automated Management System (PAMS); (3) Enhanced Maintenance Operations Center (EMOC), a NSS; (4) Training Business Area (TBA); (5) Maintenance Scheduling and Application Tool (MSAT); and (6) Computer Software Configuration System (CSCS)

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** July 2014 - July 2019 (One year base period plus four 1 year options periods)

**Dollar Value:** \$13M - \$20M

**NAICS Code:** 541511

**RFP Release Date:** 3Q FY14

**Incumbent:** General Dynamics Information Technology (GDIT), W91QUZ-06-D-0012/-6K28

**POCs:** Program Manager – Jamesia “Toni” Trammell

[HIAM.ACQ@us.af.mil](mailto:HIAM.ACQ@us.af.mil)

334-416-5461; DSN 596-5461

Contracting Officer – Margie Johnson

[margie.johnson@us.af.mil](mailto:margie.johnson@us.af.mil)

334-416-6341; DSN 596-6341

**Project:** Technical Orders Systems Sustainment Contract.

**Objective:** Award follow-on effort for a single contract vehicle to encompass the maintenance, sustainment, and modification of two existing technical data systems: Enhanced Technical Information Management System (ETIMS) and Automated Technical Order System (ATOS).

**Scope:** The contract will include the incorporation of functional requirements to modify current capabilities along with software maintenance, sustainment, modification, system design and development, system performance and metrics, performance monitoring, database design and development, test and evaluation, maintenance, training, integration, migration, risk management, configuration management, Section 508 compliance, documentation updates, meeting support, helpdesk support/diagnostics (levels I, II, and III), production support, and Commercial Off the Shelf (COTS) upgrades.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** January 2015 - January 2020 (One year base period with four 1 year option periods)

**Dollar Value:** \$25M - \$50M

**NAICS Code:** 541511

**RFP Release Date:** 1Q FY15

**Incumbent:** LEIDOS, W91QUZ-06-D-0016/-6H02

**POCs:** ETIMS Program Manager – Tim Hinders

[timothy.hinders.1@us.af.mil](mailto:timothy.hinders.1@us.af.mil)

937-656-0537; DSN 986-0537

ATOS Program Manager – Charles Bruce

[charles.bruce.1@us.af.mil](mailto:charles.bruce.1@us.af.mil)

937-904-2698; DSN 674-2698

Contracting Officer – Curtis Locker

[curtis.locker@us.af.mil](mailto:curtis.locker@us.af.mil)

937-904-0523; DSN 674-0523

**Upcoming Acquisitions**

**Project:** Depot Maintenance Consolidated Operational Database (DMCOB)

**Objective:** Consolidate and provide data for the production management of the Depot repair and maintenance process for the Air Force Enterprise.

**Scope:** The requirement is to provide development, sustainment and surveillance support for the DMCOB, which is the foundation of the Depot Maintenance Systems Integration (DMSI) environment.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** April 2015 - March 2016 (One year base period plus four 1 year option periods)

**Dollar Value:** <\$25M

**NAICS Code:** 541511

**RFP Release Date:** 1Q FY15

**Incumbent:** Serco Inc., FA8770-11-C-0015

**POCs:** Program Manager – Mylynnde Durand

[mylynnde.durand@us.af.mil](mailto:mylynnde.durand@us.af.mil)

937-257-4327; DSN 78-4327

Contracting Officer – Deneen Oldham

[deneen.oldham@us.af.mil](mailto:deneen.oldham@us.af.mil)

937-257-5339; DSN 787-5339

**Upcoming Acquisitions**

**Project:** Depot Maintenance Accounting and Production System (DMAPS)

**Objective:** Provide sustainment support to DMAPS - Integration Engine (IE)

**Scope:** One of five systems within the DMAPS suite supporting organic depot maintenance repair requirements at Tinker, Robins, Hill, and Kadena Air Force Bases. IE supports the depots' financial, material, and production requirements.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** July 2014 - July 2019 (One year base period plus four 1 year option periods)

**Dollar Value:** \$5M - \$11M

**NAICS Code:** 541512

**RFP Release Date:** 3Q FY14

**Incumbent:** Intergraph Government Solutions, FA8604-10-C-7000

**POCs:** Program Manager – Robert Kodya

[robert.kodya@us.af.mil](mailto:robert.kodya@us.af.mil)

334-416-5015; DSN 596-5015

Contracting Officer – Jeremy Perry

[jeremy.perry.5@us.af.mil](mailto:jeremy.perry.5@us.af.mil)

937-656-5847; DSN 986-5847

**Upcoming Acquisitions**

**Project:** Depot Maintenance Accounting and Production System (DMAPS)

**Objective:** DMAPS Program Management Office (PMO) Re-compete: Sustainment, Development and Subject Matter Experts (SME) Support

**Scope:** Provide operations, sustainment, modification, test, integration, security, and implementation for DMAPS suite of systems; Defense Industry Financial Management System (DIFMS), Naval Air Systems Command Industrial Material Management System (NIMMS), Automated Bill of Materials (ABOM), and Integration Engine (IE).

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** January 2016 - December 2020 (One year base plus four 1 year option periods)

**Dollar Value:** \$4M - \$13M

**NAICS Code:** 541512

**RFP Release Date:** 4Q FY15

**Incumbent:** Robins Gioia, FA8604-12-C-7000

**POCs:** Program Manager – Robert Kodya  
[robert.kodya@us.af.mil](mailto:robert.kodya@us.af.mil)  
334-416-5015; DSN 596-5015  
Contracting Officer – Jeremy Perry  
[jeremy.perry.5@us.af.mil](mailto:jeremy.perry.5@us.af.mil)  
937-656-5847; DSN 986-5847

**Project:** Automated Business Service System (ABSS)

**Objective:** ABSS is the Air Force's system of record for financial commitments used to electronically create, route, certify, record, and post commitment and obligation documents in the standard budget execution process. The objective is to provide maintenance, sustainment, enhancement, updates, and integration support, including day-to-day level 2-3 help desk, requirements analysis, development, data analysis, and updates to keep ABSS operational.

**Scope:** Provide maintenance/sustainment support to ensure continuous system availability for over 16,500 active Air Force users at 200 world-wide sites. Support includes help desk services, server administration, and development integration of legacy code, interface maintenance, system & security updates, and other associated activities. Awardee must have detailed understanding of electronic budget commitment & obligation process to quickly support execution of over 355K documents in excess of \$84B annually.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** August 2014 - August 2019 (One year base period plus four 1 year option periods)

**Dollar Value:** \$7 - \$12M

**NAICS Code:** 541511

**RFP Release Date:** 3Q FY14

**Incumbent:** Harris IT Services, Inc., FA8771-04-D-0003

**POCs:** Program Manager – James Guy

[james.guy.4@us.af.mil](mailto:james.guy.4@us.af.mil)

937-656-2006; DSN 986-2006

Contracting Officer – LaKeisha Sandford

[lakeisha.sandford@us.af.mil](mailto:lakeisha.sandford@us.af.mil)

937-257-3246; DSN 787-3246

**Project:** ACES FoS: ACES, IWIMS, ACES-FD, EODIMS Sustainment Support

**Objective:** Provide sustainment support for the ACES FoS.

**Scope:** (a) ACES Family of Systems (FoS) (b) Help desk, sustainment, test support (c) sustainment: Automated Civil Engineer System (ACES) - Provides base and MAJCOM Civil Engineer managers with real time data input and information output while allowing effective resources allocation, work planning, scheduling, tracking and execution of the Civil Engineering mission. Interim Work Information Management System (IWIMS) - Identifies day-to-day work requirements as well as long range maintenance and repair requirements. Identifies recurring work requirements ensuring base sustainment activities are identified and completed. ACES-Fire Department (ACES-FD) - Provides Firefighters the ability to facilitate efficient emergency vehicle dispatching, and a Data Management System (vehicle, equipment, manpower, etc.). Explosive Ordnance Disposal Information Management System (EODIMS) - Provides classified and unclassified information for EOD core processes, operations, resources, flight management and incident reporting. Allows worldwide sharing of EOD operations, WMD information, responses, and enhances operational coordination among units, MAJCOMs, and Air Force; very Important Person Protection Support Activity (VIPPSA) module is used to identify available EOD teams and schedule missions for protection of the President, Vice President, and other dignitaries.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** July 2014 - May 2019 (Ten month base period plus four 1 year option periods)

**Dollar Value:** \$43M

**NAICS Code:** 541511

**RFP Release Date:** 3Q FY14

**Incumbent:** General Dynamics Information Technology (GDIT), FA8771-04-D-0007 0131

**POCs:** Program Manager – Capt Jesse Anderson  
[jesse.anderson@us.af.mil](mailto:jesse.anderson@us.af.mil)  
334-416-1186; DSN 596-1186  
Contracting Officer – LaShunya Johnson-Vinson  
[lashunya.johnson-vinson@us.af.mil](mailto:lashunya.johnson-vinson@us.af.mil)

**HIB**

**2014**

**BUSINESS SUSTAINMENT  
DIVISION**

## **Upcoming Acquisitions**

**Project:** Air Force Medical Omnibus Web Applications Pool (AFMOWAP)

**Objective:** To provide sustainment support and minor enhancements for the AFMOWAP applications.

**Scope:** Provide sustainment support to ensure continuous availability of the entire AFMOWAP family of systems for over 46,000 Air Force active, Reserve, and National Guard Users at 150 world-wide sites. Support includes help desk services, server administration, and development integration of legacy code, interface maintenance, system compatibility & security updates, programming language updates, and other associated activities.

**Acquisition Approach:** 8(a) Sole Source Direct Award

**Small Business Set Aside:** Yes

**Period of Performance:** September 2014 - September 2016 (One year base period plus one 1 year option period)

**Dollar Value:** \$4M

**NAICS Code:** 541511

**RFP Release Date:** 3Q FY14

**Incumbent:** ERP International, FA877-12-C-1032

**POCs:** Program Manager – Nancy D. Moore

[nancy.moore@us.af.mil](mailto:nancy.moore@us.af.mil)

334-416-2603; DSN 596-2603

Contracting Officer – Annette Hudson

[annette.hudson@us.af.mil](mailto:annette.hudson@us.af.mil)

334-416-1370; DSN 596-1370

## Upcoming Acquisitions

**Project:** Infrastructure Systems (Automated Inter-site Gateway System (AISG), Corporate Data Repository System (CDRS), and Joint Deficiency Reporting System (JDRS)

**Objective:** To provide the IT services capabilities necessary to meet the requirements of the AISG/CDRS/JDRS efforts. IT support services such as, but not limited to, IT Systems Management, development and/or sustainment, maintenance, modification testing, implementation, documentation, configuration management, database administration (DBA), System Administration (SA), help desk support, training and assistance with Certification and Accreditation (C&A) requirements; understand and have the ability to troubleshoot the Military Standard Transaction Reporting and Accounting Procedures (MILSTRAP) uniform codes and formats used in transmitting receipt, issue and adjustment data between systems supported by AISG.

**Scope:** AISG provides a flexible communications medium to support intersite communications throughout AF Materiel Command (AFMC). It facilitates bulk information exchange between AFMC bases. AISG also supports information flow from the AFMC core logistics systems to other DOD organizations. The AISG/M024B system is an unclassified but sensitive production system running 24-hours per day, 7-days per week at each site, providing the communications capability to facilitate intrasite data interchange. It supports on-line interfaces using the File Transfer Protocol (FTP) and an AF/Defense Logistics Agency standard format to communicate via the Defense Information System Network (DISN) and Air Force networks.

**CDRS** is a metadata management tool that stores information about all registered AFMC and other DOD data systems; information on their interfaces with other systems; the business process which these systems support; the organizations and personnel who perform roles with relation to these data systems; and the standardized data elements used by the system interfaces. The production system uses an Oracle database, which is hosted on an HP 2660 on the Air Force network at WPAFB. The web browser-based client application is used throughout AFMC. Critical to the operation of CDRS is the capability to accomplish the standardization of all metadata (information about data) as well as implementing data definition standards, identifying data redundancy, supplying database documentation, and assisting with system modifications. Standardization of the metadata is what allows systems to interface seamlessly with other systems.

**JDRS** is an Air Force (AF) process for identifying, reporting, investigating and resolving materiel-related conditions which impact the missions' Deficiency Reporting, Investigating & Resolution (DRI&R). Headquarters AF Materiel Command manages the DRI&R process for the Air Force. Implemented through Technical Order (TO) 00-35D-54, DRI&R applies the requirements set forth by: Public Law Part 41; Defense Logistics Agency Regulation (DLAR) 4155.24 Air Force Instruction (AFI(I) 21-115), Product Quality Data Reporting (PQDR); and Air Force Materiel Command Instruction (AFMCI) 63-510, Deficiency Reporting, Investigating & Resolution. The primary information

**CONTINUED**

management tool supporting the process is the Joint Deficiency Reporting System (JDRS). Naval Air Systems Command (NAVAIR) manages JDRS for the AF and the aviation sectors of the other services. JDRS utilizes workflow management to ensure uniform and predictable business process flow across the business enterprise. JDRS is designed around the standard Department of Defense (DOD) Product Quality Deficiency Reporting (PQDR) process set forth in DLAR 4155.24.

**JDRS** requirements and the JDRS Configuration Control Board (CCB) are managed jointly between DOD services and agencies. Under agreement with NAVAIR, each service provides its own Level I and II Help Desk support, and NAVAIR provides DOD-wide level III help desk support. JDRS interfaces with: 1) Lockheed Martin's Financial (FIN) system (for F-22); and 2) the AFMC-LIC. HQ AFMC/A4 is the AF Functional Advocate for Airmen using JDRS. Exhibit management activities include support from DLA-owned warehouses at the three Air Logistics Centers (ALCs), and use of the Web Software Deficiency Report (WebSDR) tool to convey information between the warehouses and the AF. The AF feeds deficiency data to other systems, including the Past Performance Information Retrieval System (PPIRS), Product Data Reporting and Evaluation Program (PDREP), PQDR Interservice Interface (II), and Global Combat Support System (GCSS) Data Services.

**Acquisition Approach:** 8(a), Alaskan Native Corporation Sole Source Award

**Small Business Set Aside:** Yes

**Period of Performance:** August 2014 - July 2019 (One year base period plus four 1 year option periods)

**Dollar Value:** \$12.5M

**NAICS Code:** 541511

**RFP Release Date:** 3Q FY14

**Incumbent:** Global Support Services, LLC, FA8771-11-C-0020

**POCs:** Program Manager – Sharon Cavendish  
[sharon.cavendish@us.af.mil](mailto:sharon.cavendish@us.af.mil)  
937-904-0347; DSN 674-0347  
Contracting Officer – Lakeisha Sandford  
[lakeisha.sanford@us.af.mil](mailto:lakeisha.sanford@us.af.mil)  
937-257-3246; DSN 674-3246

**Upcoming Acquisitions**

**Project:** Commanders' Resource Integration System (CRIS)

**Objective:** This effort is to replace the expiring maintenance contract for CRIS. CRIS implements SAF/FM direction to "facilitate decision making within the Air Force by providing visibility into worldwide supply and financial execution on a near real-time basis." The CRIS contract provides sustainment support, which provides the requisite decision making support for CRIS users. CRIS is a read-only, multi-tier, relational data warehouse providing top-to-bottom level visibility across all echelons of the Air Force. The CRIS warehouse offers data from multiple legacy systems: Budget, Accounting, Supply, Fuels, Flying Hours, Civilian Pay and Personnel. The breadth and depth of data reduces the data collection effort allowing more time to be spent on decision support. Approximately 14,000 users utilize the CRIS warehouse either by a business intelligence tool or web application, and execute over 8 Million queries a year with an average query response time of 5 seconds. The CRIS program's mission is to deliver reliable, accurate and timely data.

**Scope:** To provide maintenance and sustainment support for CRIS to ensure continuous system availability to over 14,000 Air Force Users. Support includes help desk services, server administration, development and integration of legacy code, interface maintenance, system and security updates and other associated activities required to keep CRIS in operational status.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** September 2015 - September 2020 (One year base period plus four 1 year option periods)

**Dollar Value:** TBD

**NAICS Code:** 541511

**RFP Release Date:** 2Q FY15

**Incumbent:** Teksouth Corporation, FA8770-13-C-0519

**POCs:** Program Manager – David F. Wolfe

[david.wolfe.1@us.af.mil](mailto:david.wolfe.1@us.af.mil)

**Upcoming Acquisitions**

**Project:** Deliberate and Crisis Action Planning and Execution Segments (DCAPES) Sustainment and Development

**Objective:** Provide sustainment and development services for DCAPES.

**Scope:** The Contractor shall perform sustainment of the existing operational system baseline. Additionally, they will perform new development of requirements to modify the existing system as outlined in the 2006 Capabilities Development Document. Conduct general systems planning and analysis, project scheduling, and overall project management, for all task areas supported, and provide enhancement recommendations to improve the functionality, performance and efficiency of War Planning Execution Systems (WPES) applications, infrastructure, and services. Enhancement recommendations shall be supported by an objective and thorough analysis of alternatives. The Contractor shall assess the impact of enhancements on the system and its users, including consideration of system security certification, return on Investment (ROI) of enhancements, and associated lifecycle costs. Improvements in performance and efficiency will be focused on maximizing delivery of business value. Although the government will define what must be accomplished and when, the contractor shall apply their management and best performance practices to accomplish the objective outcomes.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Period of Performance:** September 2014 - September 2019 (1 year base with 4 one-year option periods)

**Dollar Value:** \$45M – \$49M

**NAICS Code:** 541511

**Project:** Enterprise Information Technology Data Repository (EITDR)

**Objective:** To provide sustainment and services for EITDR

**Scope:** EITDR is the designated official Air Force Information Technology (IT) Compliance Reporting Tool supporting an integrated set of Air Force Chief Information Officer (CIO) compliance processes. EITDR provides visibility and reporting for spending of Air Force corporate funds to support the Air Force IT investment decisions. It provides automated technology investment decision support and workflow capabilities for IT Managers, Portfolio Managers, Program Managers, and all stakeholders of IT systems. Additionally, EITDR has been identified as the Air Force IT Portfolio Management system of record for all IT systems.

## Upcoming Acquisitions

**Project:** Integrated Budget Documentation and Execution (IDECS II) Support

**Objective (current contract):** The SAF/AQXR Mission is to integrate programming, budgeting and execution activities affecting Air Force Modernization programs. This task order supports this mission by helping to sustain a key tool used in preparation of budget submissions to Office of the President of the United States, United States Congress and Senate, Secretary of the Department of Defense, and the White House Office of Management and Budget, etc.

The Integrated Budget Documentation & Execution System (IDECS II) is an Air Force enterprise-level information system for over 2000 users, at 15-20 locations. It facilitates budget development and execution of the acquisition budget for three Air Force investment appropriations.

This procurement requires the contractor to provide program management and administrative support, Systems Information Assurance Certification, Help Desk Support, Training Support, Maintenance Concept Support, Database Administration, Maintenance and Sustainment Support, Software Data Package Development, Testing and Delivery. In addition, support is required for Financial Business Processes that involve submittal of budget justification, new start, and program termination documents to Congress for enactment across all Air Force appropriations up to and including the Office of the Under Secretary of Defense Comptroller.

**Scope (current):** The objectives of this requirement are for the contractor to provide support for the operation, maintenance and sustainment of the Integrated Budget Documentation and Execution System (IDECS II). Furthermore, the Secretary of the Air Force for Acquisition and the Secretary of the Air Force for Financial Management require experienced personnel to support development, publication, delivery, and release of AF budget justification materials to AF functional offices, Office of the Secretary of Defense, White House Office of Management and Budget and Congress, as directed.

The work will be performed at the contractor's site, the Pentagon and various DOD facilities. Long Distance Travel will be involved so that the contractor can perform various training sessions with government officials and individuals located at DOD facilities.

This will be a competitive procurement and should the incumbent contractor not receive the award based on all evaluation factors considered a transition period of 15-20 days will be undertaken by the incumbent and newly awarded contractor. A smooth and complete transition will be contemplated should the incumbent contractor not receive award of a task order resulting from this solicitation.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**CONTINUED**

**Period of Performance:** April 2015 - May 2020 (One year base period plus four 1 year option periods)

**Project:** Information and Resource Support System (IRSS)

**Objective:** Provide sustainment services for IRSS

**Scope:** To provide IRSS functional users with a fully operational system aligned with Air Force vision and architectural goals. Existing production software (SW) in GCSS-AF IF continues to require baseline maintenance and system enhancements. The Contractor shall provide typical SW activities including: requirements review, software redesign/recoding, internal developer testing, customer acceptance testing, additional coding and regression testing, documentation and artifact preparation, and source code delivery. The contractor shall provide Functional System Administrator (FSA) and Help Desk Support. Level 1 and Level 2 Help Desk support and FSA services shall be provided at the Pentagon [single contractor Full Time Equivalent (FTE)] and Level 3 Help Desk and sustainment support out of the contractor's development/test facility. The contractor shall provide GCSS-AF IF integration support including preparation and testing of each new software release going into the production baseline. Integration support consists of activities in three environments: Support to the Responsible Test Organization (RTO) for the Capabilities Integration Environment (CIE); Pre-Production Resource (PPR) and Production Resource (PR) staging. The contractor shall provide PM support through participation in Technical Interchange Meetings (TIMs) with PMO counterparts.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Upcoming Acquisitions**

**Project:** Job Order Cost Accounting System II (JOCAS II)

**Objective:** JOCAS II is the Air Force's system of record for producing reliable and timely management reports, journal vouchers and SF-1080 bills for proper Air Force Financial Management. The objective is to provide maintenance, sustainment, enhancement, and integration support for JOCAS II, including day-to-day system administration and system coverage, data analysis, requirements development based upon prioritization of Air Force (AF) wide block releases, tracking/reporting resources, providing updates, and other work relating to current JOCAS II modules. Develop modifications, enhancements, and corrections of deficiencies and change requests for the JOCAS II application ensuring that the statutory requirement Federal Managers Financial Integrity Act (FMFIA) and National Defense Authorization Act (NDAA), Chief Financial Officers (CFO) Certification, General Accepted Accounting Principles (GAAP), technical integrity, quality, and documentation are maintained. Develop deliveries of standardized and specialized training for JOCAS II targeted towards functional, technical and Ad Hoc audiences. Complete JOCAS II Oracle Migrations to include, but not limited to, code, test, and implementation. Provide functional and technical support for the JOCAS II program.

**Scope:** Provide maintenance, sustainment, enhancement, and integration support to ensure continuous system availability to produce reliable and timely management reports, journal vouchers and SF-1080 bills for proper Air Force Financial Management and provide time and attendance for over 38,000 military and civilian personnel. Support includes design, code, unit test, formal test, and implementation of JOCAS II requirements. Additional support includes providing software maintenance, enhancement and sustainment support for JOCAS II; developing train-the-trainer training for JOCAS II; maintaining end user training materials for JOCAS II; providing second and third tier Help Desk support for the functional and technical user community; and providing engineering support for the centralization of JOCAS II site production operations to WPAFB.

937-257-3522; DSN 787-3522

**Project:** Sustainment Support Program (SSP) III

**Objective:** This acquisition covers the tasks necessary to provide sustainment, maintenance, and modifications to the Sustainment Support Program (SSP) managed by AFLCMC/HIBB. Sustainment is the continuing operations, software releases categorized as iterations on the basic release and not involving significant performance improvements or extensive testing, and minor improvements in software functionality, which are accomplished during routine maintenance. Maintenance is defined as the period in the software life cycle during which the system is used in its operational environment, monitored for satisfactory performance, and modified as necessary to correct problems or to respond to changing requirements. Modifications cover any significant changes to the functionality of the system. There are no inherently governmental functions included in the contract requirements.

**Scope:** The AFLCMC/HIB SSP III provides engineering services for systems and applications that are currently in sustainment. AFLCMC/HIBB PMO manages the SSP, which consists of six (6) separate systems and applications: Acquisition and Due-In System (ADIS), Contracting Information Database System (CIDS), Contracting Profit Reporting System (CPRS), Contract Writing System (ConWrite), Contract Business Intelligence Service (CBIS), and the INTEGRITY Tool for the Standard Procurement System (SPS). To accomplish the work required, the government must acquire services from the private (commercial) sector to perform those tasks considered non-inherently governmental. These tasks include software development and maintenance, architectural artifact development and maintenance, internal and, to some degree, enterprise hardware and software support. They will also provide services associated with all software solutions and programs. These tasks have a basis in the Standard Engineering Process (SEP).

**Project:** Air Force Human Resource Systems Technical Support (HRSTS)

**Objective:** To provide PMO technical support services used for sustainment and testing support. The AF HR PMO is part of the Air Force Life Cycle Management Center (AFLCMC), Program Executive Officer, Business and Enterprise Systems, Business Sustainment Systems Directorate, Human Resources Systems Branch (HIBG).

**Scope:** The Contractor shall conduct system analysis, design, coding, maintenance, test and documentation of system technical requirement specifications and design IAW Government standards for assigned legacy sustainment projects. The Contractor shall maintain the current system baselines and provide software change and problem fixes to these baselines as required. The Contractor shall perform system performance tuning, system re-hosting, and integration services. The Contractor may be required to migrate legacy systems to an Enterprise Resource Planning (ERP) system or an existing standard infrastructure such as the Global Combat Support System (GCSS) or DoD Enterprise Computing Center (DECC). The Contractor will be required to develop schedules and implementation plans, including parallel operations, identification of technical approaches, and a description of anticipated prototype results. The Contractor may also be required to develop, operate and maintain prototype applications, models and databases to determine optimal solutions for integration concepts and problems integral to the integration process. The Contractor shall utilize Government-Off-The-Shelf (GOTS) or approved Commercial-Off-The-Shelf (COTS) tools for systems design and development Support shall be provided to the Air Force Personnel Center (AFPC) and the Air Force Personnel Operations Agency (AFPOA) located at Randolph AFB, TX.

**HIB****BUSINESS SUSTAINMENT  
DIVISION****2014****2014****Upcoming Acquisitions****Project:** System Metric and Reporting Tool (SMART)

**Objective:** The Air Force objective of this effort is to continue the development and implementation of the project performance measurement tool that depicts the health and status of acquisition programs and projects and allows selected users ad hoc (on demand) access to health and status data instead of requiring the generation of periodic reports by project office personnel. Data integrity and fidelity will be managed by project office personnel and staff. The purpose of this task order is to continue to support the implementation and maintenance of the System Metric and Reporting Tool (SMART) environment and related USAF Acquisition Domain (AcqDom) initiatives.

**Scope:** The scope of this effort is to continue the status reporting initiative that granted access to key program parameters rather than having program and project office personnel generate status reports, coordinate those reports through the chain of command, and provide the coordinated reports to decision makers. The current effort is being developed using the incremental development paradigm, generating requirements that are satisfied in rapidly developed tool releases. Two major versions are generally planned for release per year, broken down into 1-2 agile production releases per month due to new/updated staff policy, technical insertion, system infrastructure and/or security compatibility, or high risk deficiencies. These versions are being developed using Microsoft SharePoint 2010, Microsoft “.NET” C#, Team Foundation Server, SQL Server Business Intelligence Tools, Nintex workflow, Public Key Infrastructure and Security Token Service authentication/authorization, SQL Server, AJAX and web services; familiarity with these capabilities and how they can be applied to a Service Oriented Architecture (SOA) environment hosted on the DISA Defense Enterprise Portal Service (DEPS) and milCloud Platform as a Service (PaaS) is a firm requirement is a firm requirement. Support for the engineering and development of other AcqDOM-related capabilities outside of SMART (but interoperable with SMART) may be prioritized and scoped for work; understanding of the AcqDom is desired.

## Upcoming Acquisitions

**Project:** Air Force Integrated Personnel and Pay System (AFIPPS), Contract 2 Request for Information (RFI) and Request for Proposal (RFP) release.

**Objective:** AFIPPS will fully integrate Total Air Force military personnel (i.e., MilPDS) & pay (i.e., DJMS-AC/RC) management processes into one Commercial-Off-The-Shelf (COTS)-based Enterprise Resource Planning (ERP) solution. The system will be a comprehensive, 24/7 self-service, web-enabled solution, aligning with DOD data standards for personnel, pay, and accounting. AFIPPS will drive the Air Force towards a common personnel system for Regular Air Force, Reserve and Guard components to design, develop, test, integrate, train, deploy, operate, and support an integrated Air Force Military Personnel and Pay system. AFIPPS will modernize business practices and provide enhanced support for service members and their families. AFIPPS will provide authoritative Air Force data to war-planners/combatant commanders (COCOMs) via the DOD Enterprise Information Web (EIW). As a result, AFIPPS will reduce 85K annual payroll pay cases by 75%, subsume 20+ legacy personnel and pay systems, and be an enabler for the Congressionally-mandated "clean audit" (NDAA dated 30 Sep 96).

**Scope:** AFIPPS will provide decision makers with immediate, accurate, and integrated Human Resources information. AFIPPS will provide Service Members with a single comprehensive record of service throughout their career, access to their Personnel and Pay information from anywhere in the world, and an improved customer service experience.

The AFIPPS program will be managed at Air Force Materiel Command (AFMC) Air Force Life Cycle Management Center (AFMC/AFLCMC) under the AFPEO for Business & Enterprise Systems (BES). The Functional Manager is Air Force Manpower and Personnel (AF/A1) along with Secretary of the Air Force Deputy Assistant Secretary for Financial Operations (SAF/FM). The Functional Management Office (FMO) represents the collaboration of AF/A1 and SAF/FM, with AF/A1 as the overall lead. The Milestone Decision Authority (MDA) for AFIPPS is the Under Secretary of Defense for Acquisition, Technology & Logistics (USD/AT&L).

**Acquisition Approach:** The AFIPPS acquisition strategy will be executed in two major contracts. The Government conducted a Full and Open Competition for Contract 1 to deliver the Blueprinting design for all Releases with an option to develop, integrate, test, train, deploy, and sustain the Leave capability for all Regular Air Force, Guard, and Reserve personnel. Contract 2 will have severable and discrete capability releases, each of which build upon and incorporate the previous baseline. Contract 2 will be awarded through a Multiple Award Contract (MAC) within the NETCENTS-II Application Services (Full & Open) ID/IQ contract vehicle. Increment 2, commonly known as the sustainment phase, is planned as a Small Business Set-Aside with contract award anticipated following the completion of Increment 1.

**Small Business Set Aside:** Yes, awarded circa FY20

**CONTINUED**

**Period of Performance:** April 2016 - Sept 2018

**Dollar Value:** TBD

**NAICS Code:** 541511

**RFI Release Date:** 3Q FY14

**Incumbent:** AFIPPS Contract 1 - International Business Machines, FA8727-13-C-0002

**POCs:** Program Manager Contract 2 – Melinda Lekberg

## Upcoming Acquisitions

**Project:** Defense Enterprise Accounting and Management System (DEAMS)  
Enterprise Resource Planning Solution Architecture (ESA)

**Objective:** Government requires experienced, senior and midlevel Subject Matter Experts (SMEs) ERP consultants. These SMEs will provide high-end technical/financial (functional) and implementation expertise to assist the Government in effectively managing the technical, schedule, and cost parameters associated with developing and deploying DEAMS. Another requirement of this effort is to evaluate AF financial legacy systems, and potentially identify other specialized commercial products to support the delivery of warfighter capability in military and federal environments.

**Scope:** The scope of this requirement is to provide management and strategy consulting as well as facilitation and related decision support services to DEAMS. This support includes providing functional and technical expertise in developing and implementing a financial solution for the USAF that meets the demands of multiple stakeholders.

**Acquisition Approach:** The strategy for the follow-on contract is a competitive, small business 8(a) certified, General Service Administration (GSA), Mission Oriented Business Integration Services (Schedule 874) Task Order. The contract will be a Firm Fixed Price (FFP) effort lasting 3 years, beginning September 2014.

**Small Business Set Aside:** Yes

**Period of Performance:** September 2014 - September 2017 (One year base period plus two one year option periods)

**Dollar Value:** \$10M - \$18M

**NAICS Code:** 541611

**RFP Release Date:** 3Q FY14

**Incumbent:** Credence Management Solutions LLC, FA8770-14-F-0524

**POCs:** Program Manager – Michael W. Greene

937-904-1995; DSN 674-1995

Contractor Officer – Kathy H. Lauden

[kathy.lauden.1@us.af.mil](mailto:kathy.lauden.1@us.af.mil)

937-257-4273; DSN 787-4273

**Upcoming Acquisitions**

**Project:** Air Force Systems Networking (AFSN) Services Contract

**Objective:** Obtain contractor services to support AFSN modernization, analysis, design, test, implementation, installation, integration and sustainment of the Air Force wide area network and Air Force Network (AFNet) operations.

**Scope:** Modernization and support for Air Force wide area network and core infrastructure components.

**Acquisition Approach:** 8(a) competitive award

**Small Business Set Aside:** Yes

**Period of Performance:** January 2015 - January 2020 (One year base period plus four 1 year option periods)

**Dollar Value:** \$12M - \$18M

**NAICS Code:** 541512

**RFP Release Date:** 4Q FY14

**Incumbent:** eSolutions Architects (eSA), FA8771-11-C-1002

**POCs:** Program Manager - Mr. Brian Jabes  
[brian.jabes.1@us.af.mil](mailto:brian.jabes.1@us.af.mil)  
334-416-5205; DSN 596-5205  
Contracting Officer – Mr. Avery Brown  
[avery.brown@us.af.mil](mailto:avery.brown@us.af.mil)  
334-416-5633; DSN 596-5633

**Upcoming Acquisitions**

**Project:** AFLCMC/HNIZ Enterprise Integration - Application Developmental Test Support

**Objective:** The objective of this task order is to obtain contractor support for all facets of AFLCMC/HNIZ test and integration processes as a Lead Developmental Test Organization (LDTO).

These responsibilities include test management and evaluation, documentation product validation, and system administration and database management. The contractor shall conduct independent testing and evaluation of information and Defense Business System (DBS) software application/system releases to verify the application/system provides the correct and expected results thus ensuring a high quality product is delivered to the warfighters across the Department of Defense (DOD). The contractor shall ensure compliance with AFI 99-103, AFMCI 99-103, and AFLCMC/HNBI 99-103 to provide uniform implementation of testing disciplines. The contractor shall provide technical expertise to encompass all functions related to integration and test management, including but not limited to: test planning, test execution, integration testing, formal systems test, Service Oriented Architecture (SOA) testing, interoperability testing, Global Information Grid (GIG), Enterprise Service Testing, Integrated Framework (IF) testing, independent testing, regression testing, test reporting, Scientific Test and Analysis Techniques, end-to-end testing, and combined test force/integrated test team (ITT)/integrated process team (IPT) participation supporting the testing of software, and Scientific Test and Analysis Techniques (STAT).

**Scope:** AFLCMC/HNIZ test work is currently performed at two operating locations: Wright-Patterson AFB and Maxwell AFB-Gunter Annex but may potentially be expanded to other BES locations. HNIZ acts as the lead for all AFLCMC/HNIZ integration, test and evaluation (T&E) processes and policies. HNIZ test personnel manage and direct activities associated with conducting integration and independent Developmental Test & Evaluation (DT&E) of AFPEO BES enterprise-wide systems and capabilities and may expand to provide these services to other AF PEOs and DOD agencies. These personnel perform test organization responsibilities for designated projects and manage/coordinate test planning and execution with other government test organizations to include, but not limited to, the 46th Test Squadron, Air Force Operational Test and Evaluation Center (AFOTEC), Joint Interoperability Test Command (JITC) with the support of the customer Program Management Office (PMO), Commercial-Off-The-Shelf (COTS) vendors, System Integration (SI) contractors, development contractors, and customers. HNIZ supports the customer PMOs in the establishment and management of Integrated Test Teams (ITT); directs and manages test activities to the extent authorized by the ITT per AFI 99-103, AFMCI 99-103, AFLCMC/HNBI 99-103 and the BES Systems Engineering Process (SEP); and supports, from an independent test perspective, customer PMO acquisition and development activities.

**Acquisition Approach:** NETCENTS-2 Application Services Small Business Companion Contract

**Small Business Set Aside:** Yes

**Upcoming Acquisitions****CONTINUED**

**Period of Performance:** September 2014 – September 2015 (One year base period plus two 1 year option periods)

**Dollar Value:** \$5M - \$10M

**NAICS Code:** 541511

**RFP Release Date:** 4Q FY14

**Incumbent:** Alliant Alliance (GSA), GS-06F-0661Z
