Diversified Technical Services, Inc. (DTSI) – DTSI is a Small Business (SB) with headquarters in Texas. DTSI has over 30 years of experience managing and performing Information Technology (IT) and Telecommunication services for government and commercial customers. DTSI’s information technology services are varied and encompass a wide range of technical services including software development, web development, network support, systems engineering, help desk support and IT facilities management. Our telecommunications services range from engineering services and implementation to a host of Wireless 802.x support services. DTSI personnel employ the latest information technologies, tools and a variety of enterprise-scale platforms to deliver low-risk effective solutions. DTSI offers its customer time tested, proven and validated solutions encompassing consistent and effective performance. One current example includes development and sustainment of a refined state-of-the-art collective suite of enterprise scale systems comprising the Military Personnel Data System (MILPDS) for the United States Air Force Personnel Center (AFPC). Beginning in 1992, DTSI (as the prime contractor) was instrumental in the modernization of this enterprise-scale system used globally by the warfighter. Three decades of experience have enabled the assembly of a team with domain and technical skills that have provided effective solutions to satisfy the complex missions of military and civilian customers worldwide. DTSI has classified and unclassified environment experience and a Top Secret facility clearance. DTSI consistency and program processes have been validated via its CMMI level 3 accreditations.

Ernst & Young (EY) – At EY, we are committed to building a better working world - with increased trust and confidence in business, sustainable growth, development of talent in all its forms and greater collaboration. We want to build a better working world through our own actions and by engaging with like-minded organizations and individuals. This is our purpose - and why we exist as an organization. Running through our organization is a strong sense of obligation to serve a number of different stakeholders who count on us to deliver quality and excellence in everything we do. We want to use our global reach and scale to convene the conversation about the challenges facing economies and the capital markets. When business works better, the world works better.

Excellus Solutions, LLC – Excellus Solutions, LLC is a Joint Venture comprised of long-term partners, 22nd Century Technologies, Inc. (TSCTI) and Optimal Solutions & Technologies, Inc. (OST). We are dedicated to providing our customers with quality IT services through process-driven best practices, including CMMI Level 5, ISO 9001:2008 and ANSI 748 Earned Value Management (EVM) processes and procedures.

The relationship between TSCTI and OST spans over a decade and across multiple projects. Our alliance has evolved from a mentor-protégé relationship, to a prime-subcontractor partnership, and presently, a Joint Venture.

A Prime on the NETCENTS-2 effort, Excellus Solutions built its team for quality, performance and success. With experience supporting the U.S. Air Force on contracts totaling more than \$4.7B, our team members have the expertise to fulfill all NETCENTS-2 task orders with proven quality. As incumbents on the NETCENTS-2 initiative, we support the Air Force mission while providing non-disruptive transition, lower risk and higher performance. We bring the skills and precision to meet the NETCENTS-2 goals: efficient in peace, effective in war, and ensuring success across the spectrum of operations.

VENDOR INDUSTRY DAY
Attendees List (May 2014)

F5 Networks, Inc. – Applications without Constraints – From banking to buying, more and more people are using applications than ever before. But those applications can't run themselves. They need specific services so they can be fast, secure, and available anytime, anywhere, on any device. Applications without constraints isn't just a company vision, it's how we measure our contributions each and every day. Delivering the most secure, fast, and reliable applications to anyone anywhere is a mission that starts with solutions built on robust and flexible technologies. Our approach to comprehensive solutions helps organizations all over the world respond quickly to changes—and deliver the most reliable applications to their users.

Performance Support, Inc. – Performance Support, Incorporated, is a woman-owned small business with operations headquartered in Montgomery, Alabama. Additional operating areas include California, North Carolina, Virginia, Georgia, Oklahoma, Utah, and various sites within Alabama. We began in 1985 as subcontractor to Unisys Corporation, performing computer quality assurance and system optimization services in support of United States Air Force global operations. We take extreme pride in having supported crucial Department of Defense combat operations like Desert Shield, Desert Storm, Desert Fox, Have Comfort, Deny Flight and Enduring Freedom; natural disaster relief missions like Hurricane Andrew at Homestead AFB, FL, Oklahoma's killer tornado at Tinker AFB, OK; Katrina's aftermath and current actions underway in Iraq and Afghanistan as well as other critical human rights missions within information assurance and assured computing - contingency operations. Likewise, we take pride in helping our commercial clients achieve their important business objectives *on time* and *within stated costs* using cost-effective and affordable information technologies.

PricewaterhouseCoopers LLP – Imagine the power of 180,000 people with a common purpose — building relationships that create value for you and your business. This is PwC. Every day, our people work with you to build the value you are looking for.

We'll start by getting to know you. You do the talking, we'll do the listening. Our tailored solutions will help you meet the challenges and opportunities of doing business in the US market, and beyond. We bring a global perspective along with in-depth knowledge of local, state and US issues. In 1998, Price Waterhouse and Coopers & Lybrand merged to create PricewaterhouseCoopers. We have a long history of delivering value-added professional services to our clients. Our accounting practice originated in London during the mid-1800.

PwC focuses on audit and assurance, tax and consulting services. Additionally, in the US, PwC concentrates on 16 key industries and provides targeted services that include — but are not limited to — human resources, deals, forensics, and consulting services. We help resolve complex issues and identify opportunities.

Our reputation lies in building lasting relationships with our clients and a focus on delivering value in all we do. Let us apply our world-class capabilities to your business goals.

VENDOR INDUSTRY DAY Attendees List (May 2014)

SI Systems Technologies (SIST), LLC – SIST is a joint venture between Stanfield Systems Inc. and Infinite Technologies Inc. Both companies realized synergies in regards to dedication, commitment, and value. In today's Defense Contractor industry, too many news stories arise reporting fraud, waste, and abuse by contractors concerned with bottom line as opposed to delivering quality products/solutions at a fair price. Leadership from both Stanfield Systems and Infinite Technologies agree that such policies are unacceptable and out of the question relative to our business practices. By joining forces, SSI and ITI, form a complete solution with qualities that rival larger entities and corporations without sacrificing overhead costs. Being lean, able to leverage the right skills at the right time are the cornerstone of SI Systems Technologies existence.

We are owned and managed by an experienced and knowledgeable team of Air Force and Army Veterans, as well as former DO Civil Servants and experts from Industry with tenured expertise.

VENDOR INDUSTRY DAY
Attendees List (May 2014)

SMS Data Products Group, Inc. – SMS has provided advanced technology products and services to the Federal Government since 1976. During that time the Government’s technology needs have evolved dramatically in scope and sophistication. While developing the expertise to meet these challenges, the company simultaneously implemented ISO standards and CMMI practices to strengthen our engineering processes, service delivery model, and organizational policies and procedures, thus providing the infrastructure to consistently deliver our contractual commitments on time with greater cost-effectiveness. SMS has also formed alliances with fortune 500 corporations and talented small businesses. These partnerships are a valuable asset enabling SMS to effectively compete for large government contracts. These opportunities provide a platform for significant growth while expanding and diversifying our areas of expertise. Throughout our 35 plus year history, SMS has successfully performed on nearly 2 billion dollars in government business.

Software Engineering Institute – Assured software—functioning as intended and free of vulnerabilities—is critical to the system capabilities that U.S. Department of Defense (DOD), civilian government, and industry organizations need to achieve their missions. Software-enabled systems deliver the rich system functionality and network connectivity that can assure mission readiness, boost productivity, spur innovation, and provide a competitive edge. The complexity and interconnectness of those systems, however, expose organizations to heightened risk from disruptive, damaging events and cyber-attacks.

For four decades, the Software Engineering Institute (SEI) has been helping government and industry organizations to acquire, develop, operate, and sustain software systems that are innovative, affordable, enduring, and trustworthy. We serve the nation as a Federally Funded Research and Development Center (FFRDC) sponsored by the U.S. Department of Defense (DOD) and based at Carnegie Mellon University, a global research university annually rated among the best for its programs in computer science and engineering.

TACG – Founded in 2006, TACG, LLC (TACG) is a Federally Recognized Alaskan Tribal 8(a) Certified firm focused on the public sector and aerospace industries. Despite our small business status, we consistently deliver on large-scale projects because of our broad scope of capabilities, our handpicked staff of consultants, and our diverse partner network. Yet we still offer a personal touch that only a small business can provide.

TACG is committed to helping organizations achieve greater flexibility and efficiency. Combined with our Acquisition/Program Management, Engineering Services, Enterprise Services, Logistics and Supply Chain Services, and Technology/Infrastructure Solutions offerings, our forward-thinking approach to consulting helps organizations connect existing technologies with emerging solutions to do more, with less, for less.

Our holding company, Alaskan Native General Services (ANGS), manages over \$100M in revenue annually. They are constantly producing new organizations and growing at an exponential rate. This provides us with significant financial reach back that supports TACG acting as the Prime Contractor on large initiatives.

Vision Technology, Inc.(VTI) – VTI's basic operating premise is that quality service does not have to be expensive. We believe that as a U.S. Government Federal Contract Service Provider, we should continuously strive to provide our customers with quality services at great value. By doing so we believe we are providing a valuable service to our country while being good stewards of the tax payer's money. This is how VTI achieves its sense of purpose and fulfillment. Our business is not about us, but rather about our customer.
