Diversified Technical Services, Inc. (DTSI) – DTSI is a Small Business (SB) with headquarters in Texas. DTSI has over 30 years of experience managing and performing Information Technology (IT) and Telecommunication services for government and commercial customers. DTSI’s information technology services are varied and encompass a wide range of technical services including software development, web development, network support, systems engineering, help desk support and IT facilities management. Our telecommunications services range from engineering services and implementation to a host of Wireless 802.x support services. DTSI personnel employ the latest information technologies, tools and a variety of enterprise-scale platforms to deliver low-risk effective solutions. DTSI offers its customer time tested, proven and validated solutions encompassing consistent and effective performance. One current example includes development and sustainment of a refined state-of-the-art collective suite of enterprise scale systems comprising the Military Personnel Data System (MILPDS) for the United States Air Force Personnel Center (AFPC). Beginning in 1992, DTSI (as the prime contractor) was instrumental in the modernization of this enterprise-scale system used globally by the warfighter. Three decades of experience have enabled the assembly of a team with domain and technical skills that have provided effective solutions to satisfy the complex missions of military and civilian customers worldwide. DTSI has classified and unclassified environment experience and a Top Secret facility clearance. DTSI consistency and program processes have been validated via its CMMI level 3 accreditations.

eSolutions Architects (ESA), Inc. – Welcome to eSolution Architects, Inc. a privately held, minority- and veteran-owned company founded in 2005 and headquartered in Montgomery, Alabama. eSA is a U.S. Small Business Administration 8(a) Business Development Program company and Small Disadvantaged Business certified since January 2009. Our company strives to deliver the products, services, and solutions to our clients across diverse business disciplines, accelerating the “time to value” of all technology investments. We also specialize in high-value services, focused primarily on server virtualization and consolidation and IT product installation, management, and support. eSA is a company founded on the principle of providing our clients with the best-possible technologies intended to provide tangible benefits to business practices and cost efficiencies.

In the ever-changing landscape of the technology industry, highly engineered, broadly focused products no longer control the market. Customers are now demanding low-cost solutions that can evolve after the initial sale to meet future anticipated and unanticipated functional needs. Additionally, strong competition resulting from shorter product life cycles and new business models is driving companies to utilize technology to discover and eliminate operational inefficiencies. eSolution Architects understands the changing technology industry and that customers can no longer rely on generic products and services designed to meet a broad spectrum of needs.

eSolution Architects is dedicated to delivering solutions that are tailored to the specific challenges our clients face by providing technical expertise grounded in pragmatic realities and requirements, helping their businesses run in the most practical, efficient manner possible. To meet our clients' needs, eSA consultants have over 100 years of experience in the technology industry, including application development, systems integration, project management, and services and support. Our company is staffed with seasoned veterans--trained and skilled in the products our company supplies, integrates, and supports. eSA is committed to delivering innovation--collaborating with our clients, assisting them in leveraging high-tech solutions developed with an insight to customer-specific business needs, allowing for increased efficiency, reduced costs, and greater revenue generation.

SI Systems Technologies (SIST), LLC – SIST is a joint venture between Stanfield Systems Inc. and Infinite Technologies Inc. Both companies realized synergies in regards to dedication, commitment, and value. In today's Defense Contractor industry, too many news stories arise reporting fraud, waste, and abuse by contractors concerned with bottom line as opposed to delivering quality products/solutions at a fair price. Leadership from both Stanfield Systems and Infinite Technologies agree that such policies are unacceptable and out of the question relative to our business practices. By joining forces, SSI and ITI, form a complete solution with qualities that rival larger entities and corporations without sacrificing overhead costs. Being lean, able to leverage the right skills at the right time are the cornerstone of SI Systems Technologies existence. We are owned and managed by an experienced and knowledgeable team of Air Force and Army Veterans, as well as former DO Civil Servants and experts from Industry with tenured expertise.

TACG – Founded in 2006, TACG, LLC (TACG) is a Federally Recognized Alaskan Tribal 8(a) Certified firm focused on the public sector and aerospace industries. Despite our small business status, we consistently deliver on large-scale projects because of our broad scope of capabilities, our handpicked staff of consultants, and our diverse partner network. Yet we still offer a personal touch that only a small business can provide.

TACG is committed to helping organizations achieve greater flexibility and efficiency. Combined with our Acquisition/Program Management, Engineering Services, Enterprise Services, Logistics and Supply Chain Services, and Technology/Infrastructure Solutions offerings, our forward-thinking approach to consulting helps organizations connect existing technologies with emerging solutions to do more, with less, for less.

Our holding company, Alaskan Native General Services (ANGS), manages over \$100M in revenue annually. They are constantly producing new organizations and growing at an exponential rate. This provides us with significant financial reach back that supports TACG acting as the Prime Contractor on large initiatives.
